- Pages for users to manage their own profile, shopping cart, purchase, history, etc. ...

Project management:

I realised this project with my project partner, from the specifications draft to the production launch. We shared tasks and missions to achieve the final goal. We shared the drafting process (specifications, project file), project management and the development phases, each of us has contributed to the project. On my side, I wrote my summaries, my professional file, my oral presentation and the production release.

Main Technologies used :

- | | |
|--|--|
| - Front-End : ReactJS | - Mobile : Cordova |
| - Back-End : ExpressJS (NodeJS) | - Desktop : ElectronJS |
